### E X P E R I E N C E

**Ahi Sushi Bar & Grill** El Cajon, CA  
Assistant Manager/ Server 2011 – Present

- Scheduled and trained new servers to provide efficient, consistent quality service
- Point of contact for handling any escalations and conflict management by ensuring a cohesive and fair work environment
- Multi-task and maintain positive rapport with customers in a fast-paced and demanding environment

**Invision Optometry** San Diego, CA  
Optometric Technician 2018 – 2019

- Developed interpersonal skills, such as empathy, communication, and active listening, through patient- provider interactions
- Established presentation skills when relaying patient finances, such as exam fees, copayments, and/or insurance coverage
- Worked collaboratively with multiple departments to create a cooperative and productive work environment
- Administered pre-tests in a timely manner and accompanied optometrist during examinations and transcribed all physical exam findings to assess patient treatment and diagnosis

### S U M M A R Y

Passionate and self-motivated Web Developer with a Full Stack Web Development certification (MERN Stack) from the University of California San Diego. Continuously growing and adapting to modern web trends while striving to provide innovative and intuitive user experiences.

Ability to communicate efficiently, multi-task and collaborate in a team oriented, fast paced and stressful environment fostered from years of experience in the health care and restaurant industry.

### P R O J E C T S

#### GAMERSAURUS

GitHub: <https://github.com/sylhuynh/gamersaurus>

Deployed: <https://gamersaurus.herokuapp.com/>

Collaborated with a team of four to develop a video game web app where users can search for games, see the latest trends, and save personal libraries

Contribution: Front end development with React, mobile responsiveness, HTML & CSS styling, API calls

Tools: MongoDB, Express.js, React, Node.js, HTML/CSS, JavaScript, jQuery, Ulkit Framework, IGDB API

#### WANDERFUL

GitHub: <https://github.com/sylhuynh/wanderful>

Deployed: <https://the-wanderful-app.herokuapp.com>

Collaborated with a team of four to develop a destination logging app where users are able to search world wide and store multiple travel destinations in their visited or wishlist page

Contribution: Back end development, created models for database, developed HTML & API routes, functionality for 'learn more' button

Tools: Express.js, MySQL, Sequelize, jQuery, Node.js, JawsDB, HTML/CSS, Ulkit Framework, Google Places API

#### MOODIES

GitHub: <https://github.com/sylhuynh/moodies>

Deployed: <https://sylhuynh.github.io/moodies/>

Collaborated with a team of four to develop a mood-based food recommendation service that displays the current weather to help users' evaluate their choices

Contribution: Front end development, mobile responsiveness, HTML & CSS styling, utilized jQuery to create functions for displaying hidden components

Tools: HTML/CSS, JavaScript, jQuery, Zomato API, OpenWeather API, Materialize Framework

### E D U C A T I O N
